Raku

NEW FOR AUTUMN 2016

Reactive texture through print

Studio Prints collections are a contemporary take on traditional designs revived from Churchill's archives. Raku, a new range in the Studio Prints collection is inspired by the traditional glazing process, known as Raku firing which creates expressive and exciting results. Manufactured in the UK, Raku inspired prints are achieved with Churchill's innovative print process. The print is positioned directly under the glaze, creating a protective layer over the decoration. Emulating an artisan glaze finish, Studio Prints Raku has all the durability and technical reassurance required for the hospitality environment.

Raku

As the revival of studio pottery continues, Raku celebrates the heritage of traditional glazing techniques. It is a stylish collection of ten plates and bowls in an attractive topaz blue shade. Each piece is unique as the reactive print acquires its beautiful colour through random, spontaneous effects. With a range of impressive technical attributes, Raku is designed to withstand the rigours of a back of house hospitality environment.

NEW ADDITIONS

This season, we add new oblongs and a selection of round plates to the Homespun range. The Homespun design offers a blend of contemporary sophistication and nostalgia. The natural colours and subtle pattern complement a wide selection of cooking and

dining styles. Homespun is manufactured in the UK; it is an underglaze print design with a hand applied edge band, which adds authenticity to the range as each piece is unique. The range has all of the professional performance benefits of our super vitrified products.

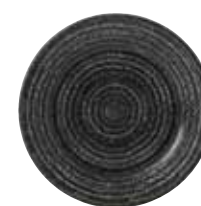

Homespun

A further twelve new items have been added to the popular Homespun collection.
